

## HER HAND AND ARM BURNED AND ITCHED

Could Hardly Sleep at Night for  
About 11 Months. Used Cuti-  
cura Soap and Ointment and  
was Completely Cured.

"My mother had a red spot on her  
right hand which began to grow worse  
rapidly. The neighbors said it was a  
tetter. She got some medicine from a  
doctor, but it did not do  
any good. In about  
a week the tetter be-  
gan to break out on  
her arm too. She  
used five or six differ-  
ent kinds of ointments  
and three different  
kinds of salves. Not  
one of these did her a  
particle of good. Her hand and arm  
would burn and itch so much that she  
could hardly sleep at night. Her hand  
was that way for about eleven months.  
Finally a friend of ours recommended  
Cuticura Soap and Ointment to us.  
She bought some Cuticura Soap and  
began to use it. She washed her hand  
and arm with Cuticura Soap and warm  
water. Then she applied the  
Cuticura Ointment and oiled her  
hand up. The next morning she  
noticed a great improvement. Before  
she had used a half of a box of Ointment  
and a very little Soap her hand was  
completely cured. Now her hand is as  
well as ever. I think Cuticura Soap and  
Ointment is the greatest skin remedy  
ever discovered. C. E. Canady, San  
Leandro, Cal., March 7, 1917."

Cuticura Remedies afford the most economical  
treatment for affections of the skin and scalp of  
infants, children and adults. A cake of Cuticura

Pecos Also Makes Remark-  
able Industrial Progress  
During Year 1910.

Pecos, Texas, Jan. 7.—The growth  
and development of Pecos and the  
Pecos valley section during the year 1910  
has been a surprise to even the most  
optimistic. The number of transfers in  
property, the great amount of im-  
provement work, the large number of  
new industries that have been estab-  
lished, all make a splendid showing  
for a city of this size. The following  
figures, obtained from reliable sources,  
give an outline of the improvement  
work which has been accomplished in  
this section during the past year.

Transfers real estate, 874; acres, 480,  
481; considerations, \$719,202.

**AUTOMOBILE SHOW  
OPENS IN NEW YORK**  
New York, N. Y., Jan. 7.—The open-  
ing of the 11th National Automobile  
show at Madison Square, today marks  
the commencement of a two weeks' au-  
to exhibition which will eclipse any  
motor car exhibition ever held here or  
abroad, in point of the number of ex-  
hibitors, comprehensiveness and the  
value of the goods displayed.

The show covers a period of two  
weeks and will be divided into two  
parts. Part one includes only exhibi-  
tors of passenger carrying motor cars  
and accessories. The total value of the  
part one exhibit is \$2,500.  
The part two period of the garden  
show, from January 14 to 21, will be  
given over to the exhibition of com-  
mercial trucks, wagons and motor  
cycles.

**UNCLE JOE CANNON FALLS  
HEIR TO \$2,500,000**  
Widow of Man Speaker Rejected,  
Dying in India, Leaves Him  
Her Fortune.  
Washington, D. C., Jan. 7.—Speaker  
Cannon will become the recipient,  
through a legacy, of nearly \$2,500,000  
according to a letter he received from  
a firm of lawyers in India.  
King, King & Co. of Bombay have  
written to the speaker that they have  
had placed in their hands by a client,  
Mrs. Waddell, her last will and testa-  
ment. In this instrument speaker Can-  
non is named as the legatee. The de-  
vice, they say, amounts to nearly \$2,500,  
000 pounds. Cannon once befriended  
her husband, who became rich. When  
he died he told her to leave every-  
thing to Mr. Cannon. The widow is  
childless and physicians say she can  
only live a few months. Uncle Joe is  
puzzled, but not unwilling to believe  
the story.

**Delicately  
Formed**  
and gently reared, women will find in  
all the seasons of their lives, as maid-  
ens, wives and mothers, that the one  
simple, wholesome laxative remedy,  
which acts gently and pleasantly and  
naturally and which may be taken at  
any time, when the system needs a  
laxative, with perfect safety and real-  
ly beneficial effects, is Syrup of Figs  
and Elixir of Senna.  
It has that true delicacy of flavor  
which is so refreshing to the taste,  
that warming and grateful toning to  
the stomach which responds so favor-  
ably to its action and the laxative ef-  
fect which is so beneficial to the sys-  
tem when, occasionally, its gentle  
cleansing is required.  
The genuine, always bearing the  
name of the California Fig Syrup Co.,  
may be purchased from all leading  
druggists in original packages of one  
size only, price fifty cents per bottle.

United States commissioner W. Ar-  
thur Jones is going to make that 20  
acre tract of land that he purchased,  
adjoining the original townsite of Amistad,  
the prettiest family homestead in

building a heavy woven wire fence  
around the entire tract, and a 50 by 30

There is a vast difference between material substances like drugs, which temporarily become a part of the body during which time they affect cer-  
tain functions and produce disturbances of nutrition which may or may not be ultimately beneficial, and THE NATURAL FORCES which DIRECTLY act  
upon tissues and cells, EXCITING NORMAL ACTION of muscles and nerves and at the same time aiding the functions of all organs and strengthening  
vital powers.

We have for years given this subject special study and investigation, we have devised means whereby many so-called incurable diseases rapidly yield  
to treatment. Our offices are thoroughly equipped. OUR CHARGES REASONABLE and uniform, and we EXTEND AN INVITATION to all Chronic sick  
people to call for a FREE CONSULTATION, EXAMINATION, ADVICE AND EXPLANATION of our New superior and in many instances original sys-  
tem of treatment.

**CATARH** Among the many diseases which affect the human system, Na-  
tural Catarrh is one of the most prevalent and liable to a greater  
variety of dangerous complications. In its development the senses of smell,  
taste, hearing and sight suffer more or less, the throat and lungs often be-  
come involved. PINOZONE, a gas formed by a combination of ozone and pine  
oil generated by a special machine which we have recently installed is produ-  
cing some remarkable cures in the most obstinate cases. WE CURE SOME  
CASES FOR TEN DOLLARS.

**DISEASES OF MEN** In the treatment of the Special Pelvic Diseases of  
Men, we have devised, developed and perfected  
remedies that have for years given perfect satisfaction. No other treatment  
in our opinion is as effective, prompt and permanent in results. In connec-  
tion with the above we have given particular time and attention to the treat-

months for results. Our remedies are applied directly and relief is prompt

## INTERSTATE BAN ON WHITE SLAVE TRAFFIC

Tombstone, Ariz., Jan. 6.—United  
States attorney Joseph E. Morrison,  
who is in Tombstone attending United  
States court, says he is in receipt of a  
letter from attorney general Winkler-  
sham explaining the new "white slave  
act," which is an amendment of the  
original act which was found faulty  
by the United States supreme court.  
The law is very strict and under it it is  
a felony, punishable by a fine of not

purposes.

It is contrary to this law for anyone

Tombstone for immoral purposes, and  
will apply just the same to anyone who  
knowingly transports a woman for such  
purposes farther than from Tombstone  
to Douglas. One of the most far reach-  
ing effects of the law will be to ex-  
clude all aliens either men or women  
from houses of ill fame.

## Opening the Doors Of the Little Red Schoolhouse

Getting Full Returns for a \$1,000,000 Investment—A 20th Century Revival  
of Democratic Spirit.  
By C. A. Perry, School Plant Utilization Inquiry, Russell Sage Foundation

The school plant of America is val-  
ued at \$1,000,000,000. It lies idle 60  
percent of the available time when it  
is used only for day school pur-  
poses. Assuming that the full use of  
this property is worth to the com-  
munity 5 percent upon the investment,  
its employment for day instruction  
only would involve an annual waste  
in the United States of \$30,000,000.

The school building should be the  
capital of the neighborhood, the focal  
point of educational, recreational, po-  
litical and social life. Its importance  
as a place for the development of in-  
telligent public spirit through the free  
discussion of public questions is funda-  
mental for "those who are opening our  
school houses for the largest public  
service are simply carrying on the tra-  
ditions of freedom."

Back in the eighties it was custom-  
ary to turn the school house over to  
the janitor at four o'clock for sweeping.  
An hour later he locked the doors, and  
the building was not used by anybody  
during the rest of the day. When he  
got through on Friday afternoon the  
school premises were closed until the  
following Monday morning. On Satur-  
day and Sunday the school grounds  
were shunned as forbidden territory.  
During the long summer months no one  
entered them, except possibly the work-  
men who went there to make repairs.

The whole school property was used  
from nine to four during 180 days out  
of the year—about 25 percent of the to-  
tal usable period.

**After School Hours.**  
But with a couple of decades a vast  
movement has been started for a wider  
use of the school plant. Many com-  
munities are now receiving much larger  
dividends upon their school invest-  
ments.

Many activities are now carried on  
in school houses after day hours. Even-  
ing and vacation schools; playgrounds  
in school yards during July and  
August; evening recreation and social  
centers during the winter months; free  
lectures, entertainments, indoor sports,  
folk-dances, civic and educational  
meetings in school assembly rooms and  
gymnasiums—these are the chief ways  
in which the taxpayers are now getting  
more service from school property.

**Night and Vacation Schools.**  
Evening schools are now maintained  
in over a third of the cities having  
more than 3000 inhabitants. In 1905-6  
the enrollment in the night classes in-  
creased nearly 4 percent over that of  
the previous year—tenfold the percent  
of increase in the day school enroll-  
ment during the same period. The  
growth of after-school activities is  
more noticeable, however, in the cities  
of 30,000 and over. Practically all of  
these support night schools, two-thirds  
of them have school house lectures  
and entertainments; one-half have  
summer playgrounds; and one-third  
hold vacation schools. In New York,

of this suffering. You can get rid of  
it by simple, safe, reliable means. Home

who, for over thirty-six years, has

His treatment is unlike any other.  
It is not a spray, douche, saline, cream,

thorough treatment than any of these.  
It cleans out the head, nose, throat

## DISEASES OF WOMEN

All that class of diseases often referred to as  
Female Complaints, for which an operation is  
usually suggested and a removal of some of the vital organs performed, can in  
nearly every instance be cured by mild and painless methods of which we have  
made a specialty for years. We have recently fitted up a special department  
for the treatment of these troubles and have secured the services of a practi-  
cal lady nurse who is always in attendance. Do not submit to an operation  
before consulting us; if an operation is absolutely necessary, we will advise it.
